DELI | VBC R/S

The Infrico Barcelona Series is the ultimate solution for deli and fresh food presentation, combining elegant design with unmatched versatility. Built to highlight the quality of your products, its straight glass front delivers crystal-clear visibility that draws customers in, while precision forced-air refrigeration keeps meats, cheeses, and prepared foods at ideal temperatures throughout the day. What truly sets the Barcelona Series apart is its modular design—giving operators the flexibility to configure layouts that grow with their business. With the option to integrate a rear storage compartment, this case transforms into a complete workstation, allowing staff to keep product close at hand, streamline restocking, and maximize efficiency during peak hours. Designed for performance, built for adaptability, and styled to elevate any retail environment, the Barcelona Series is more than a display—it's a powerful merchandising and operational tool.

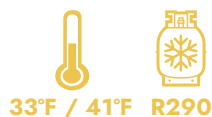

MODEL	DIMENSIONS	WEIGHT

DELI DISPLAY CASES

DELI | VBC/SCP

The Infrico Barcelona Series meat display cases are engineered to deliver a perfect balance of performance, durability, and visual merchandising impact. Featuring a sleek straight glass design, these cases provide maximum product visibility while maintaining precise temperature control through advanced forced-air refrigeration, ensuring consistent freshness and extended product life. The stainless steel interior (304 series) offers superior hygiene, durability, and ease of cleaning—ideal for demanding meat and deli environments—while the customizable exterior color finish allows seamless integration into any store design. Built with European craftsmanship and designed for high-volume retail environments, the Barcelona Series elevates product presentation while supporting operational efficiency and food safety at every level.

DELI | VEX

The Infrico Experience VEX Series is purpose-built for modern retail environments where visibility, flexibility, and performance drive sales. Designed to elevate product presentation, the VEX line is available in both curved and straight glass configurations, allowing operators to tailor the aesthetic to their store concept while maximizing customer engagement. Engineered for high-volume merchandising, these cases combine reliable refrigeration performance with clean, contemporary design. The interior can be configured in either a bright white finish for enhanced product contrast or durable stainless steel for a more premium, professional look—giving retailers the versatility to match both brand identity and operational needs. The VEX Series delivers a refined balance of style and functionality, making it a powerful solution for today's demanding retail spaces.

DELI | VCL

The Infrico VCL Series is engineered for durability and efficiency in high-traffic retail environments, where performance and ease of maintenance are critical. Designed with sanitation in mind, this rugged unit features a reduced base footprint that allows for easier floor cleaning underneath—an essential advantage in fast-paced foodservice operations. Its innovative construction also enables full interior washdown without compromising electrical components, ensuring both safety and simplified maintenance. Showcasing a clean European straight glass design, the VCL Series delivers a modern, professional presentation while standing up to demanding daily use. Available in stainless steel for maximum durability or painted steel for a more customized aesthetic, the VCL Series is a practical, resilient solution built to perform where it matters most.
