SELF CONTAINED MLP

The Infrico MLP Series open multideck merchandisers combine sleek European design with high-performance functionality, making them an ideal solution for both small and large retail environments. Engineered with energy efficiency in mind, these units help reduce operating costs while maintaining optimal product temperatures and visibility. Built for durability and daily use, the MLP Series delivers reliable performance in demanding settings. Its modular design provides exceptional flexibility, allowing for customized layouts that adapt to any store concept while enhancing overall style and merchandising impact.

SELF CONTAINED GLASS DOOR MLDCP

R290

33°F - 41°F

The Infrico MLDC Series glass door multideck merchandisers deliver the perfect balance of energy efficiency, product visibility, and modern European design. Featuring sleek glass doors, these units help reduce energy consumption while maintaining consistent temperatures to preserve product quality. Built for durability in high-demand retail environments, the MLDC Series ensures reliable, long-term performance. Available in stainless steel or painted steel finishes, they can be tailored to match any store aesthetic. With a modular design that allows for flexible configurations, the MLDC Series is ideal for both small stores and large supermarket applications—providing a clean, professional look while maximizing merchandising efficiency.

SELF CONTAINED MLDGU

R290

33°F - 41°F

The Infrico MLDGU Series glass door semi plug-in merchandisers offer the convenience of a full-height supermarket display with the flexibility of a self-contained system. Designed with a top-mounted refrigeration unit, these cases combine the performance and capacity of traditional remote merchandisers with the ease of installation of plug-in equipment—delivering the best of both worlds. Ideal for a wide range of retail applications, the MLDGU Series simplifies setup by requiring only a drain connection, eliminating the need for complex refrigeration piping. Built with a sleek European design and engineered for efficiency and reliability, this series provides a practical, high-impact solution for modern merchandising environments.

SELF CONTAINED MLDGU22

R290

33°F - 41°F

The Infrico MLDGU22 Series elevates the semi plug-in concept by delivering even greater display capacity with an increased height of 86 inches. Designed to replicate the true supermarket multideck experience, this model maximizes vertical merchandising space while maintaining the convenience of a self-contained system. It's the ideal solution for operators looking to achieve full-scale retail impact without the complexity of a remote installation.
