PASS-THRU REFRIGERATOR

R290

33°F - 38°F

Enhance kitchen efficiency with Infrico Pass-Thru Refrigerators. Built in AISI 304 stainless steel interior and exterior, they ensure a hygienic design and long-lasting performance. Precise digital control system ensures consistent performance, enhanced by an expansion valve for optimal refrigeration efficiency. Self-closing doors with triple-chamber gaskets provide superior sealing.

Energy-efficient LED lighting enhances interior visibility. Equipped with universal tray slides designed to accommodate 12" x 20" and 18" x 26" pans, along with six plastic-coated wire shelves per section.

PASS-THRU HEATED CABINETS

Boost efficiency and food quality with Infrico Pass-Thru Heated Cabinets. Built in AISI 304 stainless steel, they ensure durability, hygiene, and easy cleaning. The pass-thru design streamlines kitchen operations, while precise digital temperature control (90°F–180°F) maintains optimal holding conditions.

Self-closing doors improve heat retention, and energy-efficient LED lighting enhances visibility. Versatile 6-shelf system with universal tray slides, designed to adapt to your needs—perfect for demanding foodservice environments.
