PASTRY | VBR AMBAR

Infrico curved and straight glass display cases are designed to elevate product presentation while delivering exceptional performance. With sleek, modern lines and high-clarity glass, these units maximize visibility and accessibility, creating a seamless connection between the product and the customer.

Self-service configurations further enhance the experience, enabling convenient access and supporting fast-paced retail and foodservice environments. Built with European design and reliable refrigeration, Infrico cases drive merchandising impact and adapt to evolving market demands.

PASTRY DISPLAY CASES

PASTRY | VON

{INOX EXTERIOR-INTERIOR}

straight glass display cases, constructed entirely from 304 stainless steel inside and out, deliver a perfect balance of durability, hygiene, and modern design.

The clean, linear glass profile provides clear, unobstructed product visibility, while the all-stainless structure ensures long-term performance in demanding environments. Built for both retail and foodservice, these cases offer a professional, high-end finish that stands up to daily use while enhancing product presentation.

PASTRY | VCO COMBO

Engineered for versatility, the Infrico VCO Combo Series combines a refrigerated self-service display with a full-service dry merchandising area above—creating a dynamic platform for both convenience and presentation.

This dual-function design allows operators to showcase products while enabling quick customer access, increasing efficiency and product turnover in high-traffic environments.
